LaCrosse Global Fund Services to Provide Operations Services to Primergy Capital Partners

LONDON – February 23, 2009 - LaCrosse Global Fund Services announced today it has been selected to provide operations services to Primergy Capital Partners LLP.

Primergy was established in 2007 to focus on opportunities in the European energy markets, with a particular emphasis on power, gas and emissions trading.

"We wanted to partner with an organisation that would give us the operational controls and access to a scalable platform, with a variable cost structure, that would serve both our existing business and also new funds that we plan to launch in the future. LaCrosse's reputation and capabilities were important factors in the selection process," said Drew Hunt, chief executive officer at Primergy Capital Partners LLP.

"Primergy's decision to outsource derivatives operations, cash and collateral management to LaCrosse fits well with our strategy to offer standalone operations services to established managers, without needing to be the administrator. We are impressed with their focus on risk management and the excellent returns that they have achieved in 2008. The LaCrosse platform will provide them with the institutional quality infrastructure they need to continue to build their business and allow them to focus on generating alpha," said Rob Heszajn, head of European Client Relations and Business Development at LaCrosse.

About LaCrosse Global Fund Services

LaCrosse Global Fund Services is a provider of operations, middle-office and administration services to managers of complex hedge funds globally. The firm has more than 300 employees in 10 global office locations: Bogotá, Buenos Aires, Caracas, Istanbul, London, Minneapolis, Moscow, New York, São Paulo and Singapore. Current assets under administration are in excess of USD \$13 billion, encompassing strategies traded by global portfolio managers who cover fixed income securities, interest rates, credit, foreign exchange, equities, commodities and related derivatives.
